

# FLOWCHART OF THE DOCTORAL STUDIES

<sup>1</sup> Application for the COMPS is required at the end of the 4th active semester. If a student does not apply for the COMPS by that time the student status will be terminated.

<sup>2</sup> Maximum 20 per cent of the credits can be fulfilled after the COMPS (up to the decision by the Doctoral Council)

<sup>3</sup> Demonstration of knowledge of two foreign languages as the output requirement of the doctoral studies.

<sup>4</sup> The absolutorium should be earned at the end of the 8th active semester (in case the student was admitted through COMPS, at the end of 4th active semester), otherwise the student status will be terminated.

\*It is strongly recommended that students submit their dissertations for the preliminary defense within 24 months following the last day of the COMPS.

<sup>5</sup> The deadline cannot be extended with the passive semesters. With passive semesters the student can extend the absolutorium or the end of the student status. Students can submit the dissertation for preliminary defense without having the absolutorium, but they cannot apply for the final defense without the absolutorium.

ADDITIONAL INFORMATION: Tuition fees and scholarships are paid ONLY for active semesters!
